## CORPORATE PROFILE

Fluent Conveyors based in Denver, Colorado designs, engineers, manufactures and markets roller chain belt conveyors, slider bed conveyors, sort stations, single stream systems, custom conveyors and more in a wide variety of industries including recycling, package handling, mining, agriculture and more. Fluent Conveyors markets its products through a network of independent dealers located throughout the United States, Canada, Europe and many other parts of the world.

Fluent Conveyors was started with a vision to enhance and provide a service that the conveying industry lacked. Since then, Fluent Conveyors has grown into an industry leading global manufacturer of conveyors and systems. With years of experience and knowledge as a guide, Fluent Conveyors is positioned to enhance its core offerings and help its dealer channel to grow.

# A NEW CONCEPT IN DEALER BUSINESS DEVELOPMENT SUPPORT

## PRESENTING THE FLUENT CONVEYORS DEALER ADVANTAGE

The Fluent Conveyors Dealer Advantage is a successful process in dealer sales support, engineering support and customer support in the industry.

This is the most extensive collection of value added benefits in the industry. Our dealers have told us exactly what they would like in a relationship with us and we listened. This dealer information PDF will give you an idea of the products, programs and services we offer to help you run a more profitable business.

As a Fluent Conveyors dealer, you have an opportunity to represent the most dedicated and innovative brand of conveyors in the industry. As your needs change, the Fluent Conveyor Dealer Advantage will change with you. Our technology continues to revamp and change on a regular basis, enhancing the customer experience and level of support.

In our business model, the most important part of our brand is the dealer. The knowledge and local relationships have helped us brand and continue to expand on the Fluent Conveyors Dealer Advantage. We have designed everything in our core processes to ensure the long-term profitability for your company is growing.

**Become part of the Fluent Conveyors dealer channel and share our passion. Thank you for all the continued support and growth!**

The Fluent Conveyors manufacturing facility is 85,000 square feet with areas clearing 80 feet of ceiling height. There is a truck loading & unloading dock and all raw materials are stored inside a heated facility and never left outdoors.

### The Facility Equipment Includes

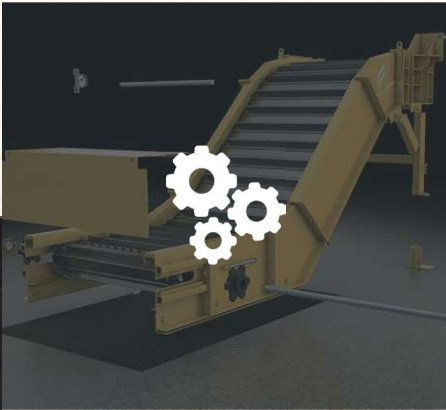

2-15 ton overhead cranes | 1-1 ton overhead crane,  
5-3 ton swiveling jib cranes | 2-1 ton swiveling jib cranes |  
Scotchman auto feed band saw | Marvel band saw | 2-Uni-  
hydro iron workers | 3-drill presses | 2-Mitsubishi lasers | 60  
x 120 cutting bed | automatic load and unload | Accustream  
water jet | 3 Accupress brakes 130 to 350 ton | 12 to 14 beds |  
Pinnacle computerized press brake | Accupress shear | 3-plate  
rollers 4 to 10 | Haas VF3 mill with 30 tool turret | Haas SL20  
lathe | Haas DS30Y lathe with bar feed | Hyundai-Kia SKT400  
LCM lathe | 6-production welding stations (TIG alum. Welding  
& MIG bronze welding)

# ADAPT WITH FLUENT CONVEYORS

## DEALER ADVANTAGE WITH POWER OF THE PROCESS

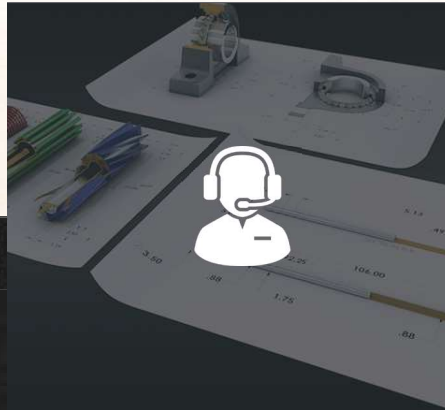

If you are looking to join the more innovative and hardworking conveyor manufacturer in the industry, look no further than Fluent Conveyors. Fluent Conveyors has spent 1000's of hours creating the best engineered conveyors in the industry. What are started out with a simple concept, has turned into a well structured business that gives dealers a competitive advantage.

## DEALER ADVANTAGE WITH FLUENT CONVEYORS

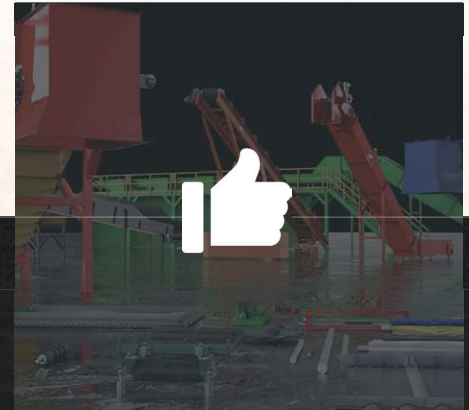

### ENGINEERING

1. Industry leading 3D CAD Software
2. Drawings within 48 Hours
3. Continually evolving core offerings
4. Driven to enhance dealer experiences
5. Embrace tough challenges

### CUSTOMER SERVICE

1. Instant Response
2. Our culture is built on service
3. Employees that care
4. Customer service is our #1 priority
5. Utilize our tools to better serve your customers

### SALES

1. Trusted
2. Honest
3. Great Listeners
4. Value your partnership
5. Want to see your business succeed under our umbrella

# GET WHAT YOU NEED AND GO

## DEALER ADVANTAGE WITH THE DEALER PORTAL

What started as a simple concept has evolved into a core business asset that allows our dealers to focus on their sales and growing their business. From one small feature of giving dealers a simple business value, the Fluent Conveyors dealer systems have created a great deal of value.

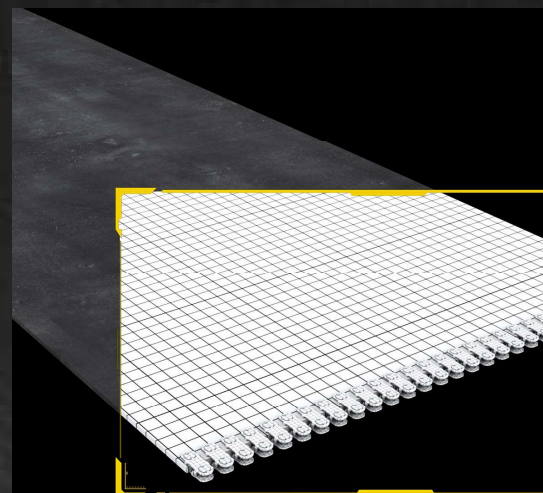

Be ready to grow your business with the dealer portal. With the latest 3D CAD software running on hardware that allows for seamless modeling and manufacturing done here in the United States, you'll get exactly what your business needs. Whether you focus on paper recyclers, scrap yards, or single stream systems, Fluent Conveyors can help later to your customers needs.

### DEALER PORTAL

- Online 24/7 Support
- Ongoing maintenance and support to ensure uptime
- Fast and secure quotes
- Organized data for long term leverage
- Enhance customer service
- Real-time manufacturing analysis on your conveyor
- Fast freight quotes

## DEALER ADVANTAGE FOR MANY INDUSTRIES

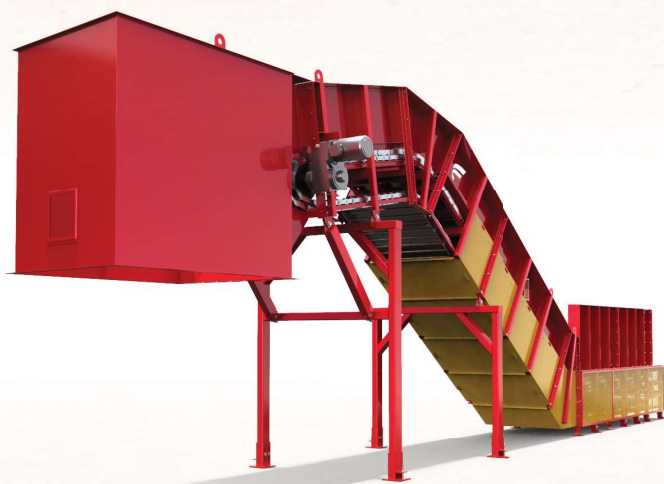

- Carpet Recycling
- Paper Recycling
- Single Stream Recycling
- MSW Recycling
- Plastic Recycling
- Scrap Metal Recycling
- Textile Recycling
- Mining
- Construction & Demolition
- Dual Stream Recycling
- E-Waste Recycling
- Tire & Rubber Recycling
- Bio-Fuel
- Package Handling
- Agriculture

# CONVEY ROBUST & HEAVY MATERIALS

## DEALER ADVANTAGE WITH FLUENT ROLLER CHAIN BELT CONVEYORS

### PRODUCT DETAIL

- Heavy Duty Structural Steel Frame
- Adjustable Supports
- Removable Guarding
- Electric Oilers
- 25# Rail
- Hinged Steel, Rubber Combo, Apron Pan & Z Pan Belt Options
- Shaft Mounted High Efficiency Motors

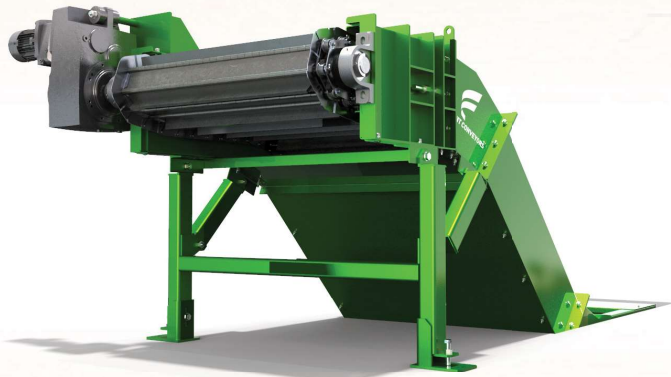

## RC SERIES

Fluent RC Series Conveyors are engineered with industry leading 3D CAD software and manufactured with precision (tolerance and standards). This series comes in standard and custom widths and lengths standard roller chain conveyors widths includes 36", 48", 60", 72", 84", 96", 108" & 120". Lower Horizontal lengths come in standard size of 10 feet, 15 feet 20 feet, 25 feet and 30 feet as well as any custom lower horizontal lengths to best match project specification. The incline angles range from 25 degrees to 35 degrees depending on the application, material, baler requirements and building specifications. The standard chain sizes include 3 inch rollers with a 6 inch pitch or a 5-inch roller with 9-inch pitch. The frame is made of 3/16" steel rectangular tubing, 1/4 "steel pan side walls, 3/16" steel rectangular tubing for supports & 25# rail track for the chain support. The RC series is MIG welded with the certified welders and validated with a seamless QA process for structural integrity.

# CONVEYING LIGHTWEIGHT BULK MATERIAL

## DEALER ADVANTAGE WITH FLUENT LIGHT DUTY ROLLER CHAIN CONVEYORS

### PRODUCT DETAIL

- Heavy Duty 3/16" Frame
- 6" - 36" Wide Belt Options
- Adjustable Supports
- Removable Guarding
- Electric Oilers
- Hinged Steel & Rubber Combo Belt Options
- Shaft Mounted High Efficiency Motors

## RC-LD SERIES

Fluent RC-LD Series of Conveyors are engineered with industry leading 3D CAD software and manufactured with precision. This series comes in standard and custom widths and lengths. Standard widths include 6", 12", 18", 24" 30" & 36" and comes in both horizontal and incline options. The frame is manufactured 1/8 inch - 3/16 inch inch steel (per application), MIG welded with trusted penetration (to increase the life cycle), sand blasted, connected with grade 8 hardware (resist corrosion and increase strength), assembled and test run prior to shipping. The RC-LD Series features industry leading components which include: belts, oilers, sprockets, shafts, bearings, drives, reducers, e-stops and optional pull cords, speed sensors, pit plates, hopper extensions, load hoppers and more.

This durable series of light duty roller chain belt conveyors has optional hinged steel or rubber combo belting. All Fluent Light Duty Roller Chain Conveyors can be used in a wide variety of applications including e-waste, single stream, paper & OCC, MSW, plastic recycling, light metal processing, automotive parts, metal turnings, turnings, forgings and more. Fluent RC-LD Series of Conveyors are engineered with industry leading 3D CAD software and manufactured with precision. This series comes in standard and custom widths and lengths. # CONVEY MID & LIGHT WEIGHT MATERIALS

## DEALER ADVANTAGE WITH FLUENT SLIDER BED CONVEYORS

### PRODUCT DETAIL

- Heavy Duty 3/16" Frame
- CEMA Rated Head & Tail Pulleys
- E-Stops / E-Stop Pull Cords
- Adjustable Supports
- Removable Guarding
- Cleated, Smooth Top, Rough Top & Chevron Belt Options
- Multiple Splice Options
- Shaft Mounted High Efficiency Motors

## SB SERIES

The Fluent SB Series Conveyors are engineered with industry leading 3D CAD software and manufactured with precision (tolerance and standards). The series comes in an array of lengths and widths. Standard widths include 24" 36" 48" 60" & 72" and lengths up to 200+ feet. Each conveyor can be engineered in custom widths and lengths as well, the frame is made of 3/16" inch steel, MIG welded with trusted penetration to increase the life cycle sand blasted, connected with grade 8 hardware (resist corrosion and increase strength) and assembled and test run prior to shipping. The SB features industry leading components which include, return roller (enhances belt life cycle), Pulley and bearings.

This durable series of slider bed conveyors can be made with mild steel or galvanized steel for wet, highly corrosive & magnetic environments. All model can be used in a wide variety of application including e-waste processing, single stream application, paper & OCC recycling, plastic, recycling, light metal processing and more

# CONVEYING BULK HANDLING MATERIALS

## DEALER ADVANTAGE WITH FLUENT TROUGH IDLER CONVEYORS

### PRODUCT DETAIL

- Heavy Duty 1/4" Frame
- CEMA Rated Head & Tail Pulleys
- CEMA Rated Standard & Inset Idlers
- Multiple Take-up options
- E-Stops / E-Stop Pull Cords
- Adjustable Supports
- Removable Guarding
- 3 Ply & 4 Ply Smooth Top & Chevron Belt Options
- Multiple Splice Options
- Shaft Mounted High Efficiency Motors

## TI SERIES

The Fluent TI Series of conveyors are engineered with industry leading 3D CAD software and manufactured with certified and trained employees. All systems go through a completed and thorough process to ensure approval drawing match manufacturing quality assurance checks. This series of conveyors comes in standard widths and lengths as well as custom. Standard widths include 24", 36", 48" and 60" with lengths up to over 300 feet long. The TI series has many options for take up adjustments, tail pulleys, head pulleys, belting, feed and discharge hoppers as well as safety controls.

The TI series frame has a standard 1/4" thick steel frame with fish plate section connections and heavy structural supports. All conveyors are MIG welded, sand blasted and painted with a high-end paint job. Buyout components feature industry leading components from Nord, Dodge, IPTCI, Allen Bradley, Superior, PPI, Goodyear, Flexco and more.

The durable TI series trough idler slider bed can be used both indoors and outdoors for a wide variety of applications such as agriculture, recycling, tire processing, aggregate, construction, gravel and more

# SORTING MATERIALS QUICKLY & ACCURATELY

## DEALER ADVANTAGE WITH FLUENT STANDARD SORT SYSTEMS

### PRODUCT DETAIL

- OSHA Rated Railing & Stairways
- Optional Slider Bed or Roller Chain Infeed Conveyors
- Multiple Configurations
- Heavy Duty Floors
- Standard or Custom Controls
- 2 Standard VFDs
- Sort Chutes
- Multiple Belt Options
- E-Stops / E-Stop Pull Cords
- Multiple Splice Options
- Shaft Mounted High Efficiency Motors

## SS SERIES

The Fluent SS Series Conveyors are engineered with industry leading 3D CAD software and manufactured certified welders and precision tooling. Fluent sorting systems come in standard sizes of 3-Man, 4-man, 6-man, 8-man, 10-man & 12-man options. Aside from the standard options, Fluent Conveyors can customize sorting solutions for anything from custom single stream systems, e-waste, C&D, paper and aluminum processing to Bio fuel processing systems and more. This series comes in standard and custom widths and lengths. Standard widths include 30", 36" & 48 and lengths up to 75+ feet. Each in-feed and sorting conveyor can be engineered in custom widths and lengths as well. This frame is made of 3/16-inch rectangular tubing, MIG welded with certified welders, sand blasted, connected with grade 8 hardware (resist corrosion and increase strength) assembled, test run and adjusted over the course of 2-3 days straight prior to shipping.

The SS Series features industry leading components which includes: belts, pulleys, feed and discharge hoppers, estops, pull cords, and bearings. This SS Series offer optional magnets, eddy currents, glass management options, safety options, custom in-feed and discharge options and for single stream systems Fluent Conveyors offers 100% designed MRFs

# CUSTOM SORTING SOLUTIONS FOR A VARIETY OF APPLICATIONS

## DEALER ADVANTAGE WITH FLUENT CUSTOM RECYCLING SORT SYSTEMS

### PRODUCT DETAIL

- 100% Made to Order
- OSHA Rated Railing & Stairways
- Optional Slider Bed or Roller Chain Infeed Conveyors
- Buyout Equipment Integrations
- Heavy Duty Floors
- Standard or Custom Controls
- Sort Chutes
- Multiple Belt Options
- E-Stops / E-Stop Pull Cords
- Shaft Mounted High Efficiency Motor

## SS-C SERIES

Fluent SS-C Series of custom sorting systems are engineered with industry leading 3D CAD software and manufactured certified welders and precision tooling. Fluent custom recycling sort systems offer a wide variety of options to fit each specific vertical including but not limited to single stream, e-waste, C&D, paper, plastics, tires, aggregate, aluminum, dual stream, MSW and Bio-Fuel.

The SS-C Series features industry leading components which include: belts, pulleys, feed and discharge hoppers, e-stops, pull cords, sprockets, oilers, speed sensors, shafts, safety controls and bearings.

This SS-C Series can be configured as a full integrated system that may include OCC screens, paper screens, trommels, fines screens, bale breakers, optical sorters, controls, bounce belt, ballistic separators, bag openers, walking floors, metering drums, live bottom bins, magnets, eddy currents, glass breakers, safety options, bunkers, push walls, pit plates, custom in-feed and discharge options.

\*Fluent Conveyors offers fully integrated and customized material handling facilities for small to medium sized applications up to 40 tons per hour.

## DESIGNED & MADE TO ORDER FOR EACH SPECIFIC APPLICATION

### DEALER ADVANTAGE WITH FLUENT CUSTOM CONVEYORS

#### PRODUCT DETAIL

- 100% Made to Order
- Specification Specific
- Custom Drive Selection
- Custom Belt Selection
- Standard or Custom Controls
- E-Stops / E-Stop Pull Cords

### CC SERIES

The Fluent CC Series of conveyors are engineered with industry leading 3D CAD software and manufactured with certified and trained employees. All systems go through a completed and thorough process to ensure the approval drawings match all manufacturing quality assurance checks. This series of conveyors is driven by the customer's requirements and conveyance specifications.

The CC series has 1000's of configuration options and we can match almost all buyout component configurations and special requirements of the customer. The CC Series is the most expensive series per conveyor based on the fact that 100% of the engineering and manufacturing process will be a 1-time project and expense.

# CONVEYING ONE PACKAGE AT A TIME

## DEALER ADVANTAGE WITH FLUENT PACKAGE HANDLING CONVEYORS

### PRODUCT DETAIL

- Standard Tail Assembly
- Center Drive and End Drive Options
- Snub Rollers
- High Efficiency Motors
- 12", 24" & Custom Guarding
- Structural Support
- PVC Belting with Additional Custom Belt Options
- Optional Transition Plates
- E-Stops / E-Stop Pull Cords

## PH SERIES

The Fluent PH Series Conveyors are engineered with industry leading 3D CAD software and manufactured by certified and trained employees. The PH series is always verified to our required tight tolerances and standards, and the drives are test run prior to shipping. This series comes in standard and custom widths and lengths. Standard widths include 36", 48" 60" & 72" with lengths up to 200+ feet. The package handling conveyors can be shipped partially assembled but are typically delivered in sections that need to be welded or bolted together.

The PH conveyor frames are made from 7, 10 and 11-gauge steel, MG welded, sand blasted and painted to customer specification. The PH series conveyors feature industry leading components which include: belts, pulleys, optional return rollers and bearings from top manufacturers such as Nord, Van der Graaf, Van Gorp, Precision Pulley (PPI) Goodyear, Fenner Dunlop and more. This durable series of slider bed conveyors can be made from stainless or galvanized steel and be used in both indoor (package handling) or outdoor applications (airport baggage handling). These conveyors are leverage by companies like UPS, FedEx, USPS, Amazon, Ebay and more

# INCREASE YOUR PROFITS

## DEALER ADVANTAGE WITH SERVICE, REPLACEMENT PARTS AND REPLACEMENT BELTS

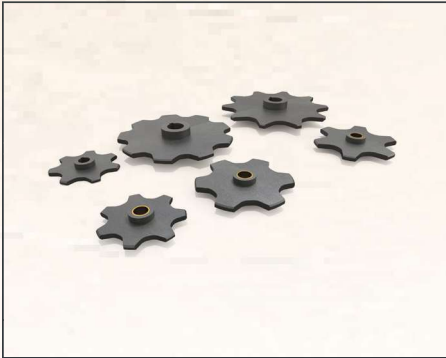

FC-AM (Fluent Conveyor After Market). It's a great residual profit area for our dealer channel. The most successful and profitable dealers use OEM Fluent Conveyor Parts & Belts because they know that they get exactly what is needed. The FC-AM process gives dealers the ability to build a residual business model in their territories. Along with parts and belts, Fluent Conveyor dealers can deploy a certified service team to increase long-term success within their business. At Fluent Conveyors it's quite simple:

**WE DON'T SELL DIRECT. EVER.**

**\*IF A CUSTOMER DEMANDS IT, WE WILL GIVE AUTHORIZED FLUENT CONVEYOR DEALERS FULL COMMISSION ON THE PURCHASE IN THEIR TERRITORY.**
